Bocabolo

Bocabolo

:: Capri

Capri... it's many things to many people. The dining tables can all be changed to low coffee tables, or counter height for ADA wheelchair requirements, or to bar height for a bistro use. Very durable finishes on cast aluminum legs and frames, along with marine-grade stainless steel fittings and plantation grown, kiln-dried, Grade A/B Teak, means a long lifespan to this solid, sturdy line. Bocabolo...something else to hand down to the kids!
